POINTS TO CONSIDER:

• If the position responsible for providing the specially designed instruction is anyone other than a certificated special education teacher or related service provider, then the certificated teacher/ provider must design and supervise the instruction, and monitor and evaluate the student's progress.

• For definitions of special education, related services, and supplementary aids and services, refer to WAC 392-172A-01020 through -01200.

• When completing section B. at the bottom of this page, remember that job placements and community-based instruction are considered to be general education settings, unless only disabled individuals are present (such as in a sheltered workshop).

- 1800 = Total building instructional minutes per week (excluding lunch time)
- 450 = Total minutes per week student is served in a special education setting
- 75 = % of time spent in general education setting
