

PURPOSE: The purpose of a Behavioral Intervention Plan (BIP) is to address behaviors that are interfering with the student's education. The goal of a BIP is to teach the student positive behavioral strategies to replace the problem behavior(s). A BIP is required to be developed and implemented if the student's violation of a code of conduct (resulting in a change of placement) is determined to be a manifestation of the student's disability, or if the IEP team determines it is appropriate.

BEHAVIORAL INTERVENTION PLAN

Student name Jason Patterson Meeting Date: _____
 Student # 49 Eligibility Category _____ Grade 1
 Home school _____ IEP Mgr _____
